

Simplify Your Seating Needs with Quality HSM Products

OneBus™ is a leading aftermarket school bus seating supplier to manufacturers and dealers. Our HSM Transportation products meet the maintenance needs of school bus fleets for seat covers, foam, complete seats, and other components needed to extend the life of any school bus.

As a trusted supplier to the major bus builders, we use only OE-approved materials, made to the same exact quality and standards supplied to the original equipment manufacturers (OEM). We have aftermarket and replacement parts for almost any make and model of school bus.

All components and seats are manufactured in our USA-owned facilities and distributed in North America by OEM aftermarket depots and leading bus and truck parts dealers and repair facilities.

Don't deal with ill-fitting aftermarket substitutes or long lead times. Request HSM products to get the same, consistent level of quality, fit, and finish as when the seats were new.

OneBus
OEM AFTERMARKET SEATING

OneBus™ is HSM's aftermarket team supporting OEM Parts and Dealers across the US and Canada. HSM Transportation is a leading manufacturer of school bus seating, including the C.E. White, Genesis, and EVOS line of seats. We make our frames, pour our foam cushions, and cut and sew every cover with pride. We are your single source resource for school bus seating products and information.

Seat Foam

HSM Replacement Foam Seat Backs and Cushions.

Our Foam seats and backs are manufactured to OE specification and designed for durability and to resist “crushing”. Don't risk using off-brand or reconditioned foam that can decrease service life - request original HSM OE foam replacements.

- Foam to fit all major OEs, including IC, Blue Bird, and Thomas Built buses.
- Designed for durability and to resist “crushing”
- Replacement foam to fit high and low-back seating
- Rebond, poured or fabricated foam is used to optimize the application
- All products meet applicable National Standards for School Bus Seating

Seat Vinyl

HSM Replacement School Bus Seat Covers.

Fix those annoying cover issues with replacement covers from HSM. Don't risk off-brand vinyl or ill-fitting covers that are difficult to install and may reduce service life. Request original HSM covers.

- Covers for all buses – even in hard-to-find sizes
- All OE vinyl and colors, including 42 and 52 oz., Fireblock, and Kevlar
- Made to OE specifications to ensure proper fit
- Options for Double Stitch, J-Hook, Velcro & Extended Tail
- Our products meet all applicable National Standards for School Bus Seating

PCR's

C.E. White Portable Child Restraint (PCR)

Give bus fleets the flexibility to outfit buses as needed for their younger passengers. This PCR installs easily on most school bus seats to provide a safer and more comfortable ride.

- The widest PCR seat on the market
- Fully adjustable to fit children from 20-90 lbs. and up to 57” tall
- Quickly unfolds into a five-point safety restraint system
- Innovative design folds up into a handy case when not in use
- Meets FMVSS 213 and NHTSA guidelines

Barrier Covers

HSM Barrier Covers.

Help the drivers keep the buses neat and orderly! Give them HSM Barrier Covers. The large pockets help them organize and keep handy the items needed for the professional operation of their bus.

- Stores needed items within easy reach
- Easily replaces the OE barrier cover
- Available in Single or 5 Pocket configurations
- Optional broom holder
- Materials and covers to match any bus's interior
